

KWS

LUMOS

WINTER WHEAT

Parentage ; Cordiale x Dover

Coming from KWS (UK), **KWS LUMOS** has combined all the positive traits that Cordiale offers (good straw, excellent quality, good consistency) with significant improvements in Grain Yield (+5%) and overall Disease Resistance, particularly on septoria and mildew.

Trial & Location

JB DIEGO

CORDIALE

RLT 2012 (National Average)	103	101	101
NLT 2010 (National Average)	105	105	102
Continuous Wheat (Cork)*	106	105	102
Early Sown 2012	108	104	102

* = average of 2 years trials

Agronomic info

Tillering capacity Moderate

Speed of Development 6
Suitable for sowing from end of September onwards

Rotation Suited for use both as 1st & 2nd /continuous Wheat

Earliness of maturity Early (7)

Straw
Height Short (7)
Lodging resistance Very Good (8)

Disease Resistance

Mildew 8
Septoria 6
Yellow Rust 8
Brown Rust 6
Fusarium 7

Excellent Specific Weight
77 - 78 KPH

High Hagberg Falling No.
300+ HFN

Potential Milling Quality
Positive feed back from Odlums

LIMITED C1 SEED AVAILABLE
- Autumn 2013

Seeding the future
since 1856
